# Technical Occupations Program Offerings

- **Automotive**
- **Welding**
- **Building Construction Trades**
- **Diesel Technology**
- **Electrical Lineworker**
- **Advanced Manufacturing**
- **Optics Technology**
- **Medical Assistant**
- **Exercise Science**
- **Culinary**
- **Baking & Pastry**
- **Hospitality**
- **Agriculture Business**
- **Horticulture Science**

## Our Staff

- **Chef Martin Kester – Culinary Arts**
- **Chef Dan Kous - Hospitality**
- **Jack Stafford - Optics**
- **Dr Suzan Melik – Medical Assistant**
- **Nicholas Lionetti – Exercise Science**
- **Shane Conner – Electrical Lineworker**
- **Erin Primavera - Automotive**
- **Brianna Miller – Welding**
- **25 adjunct faculty members directly from industry**

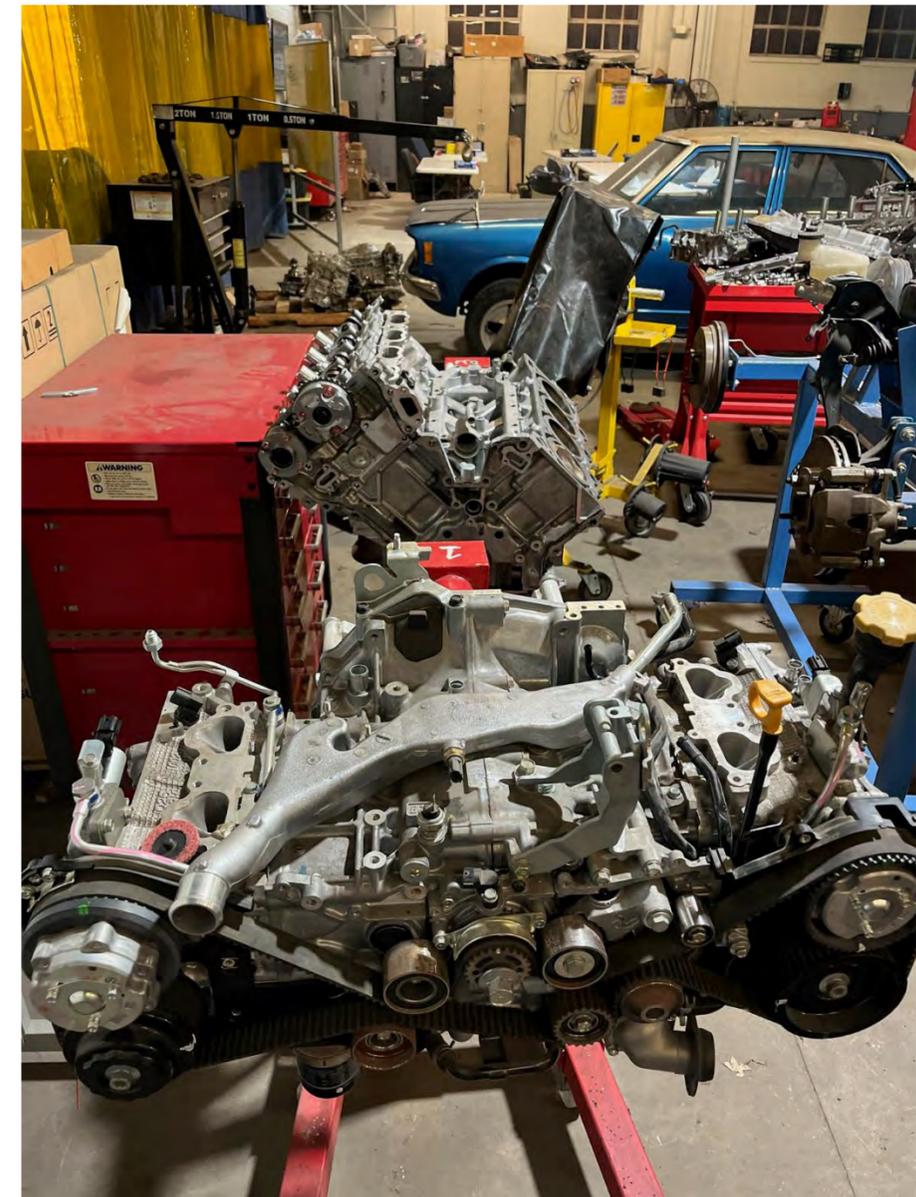

# ABOUT SCCC Automotive

## Facility

Sussex County Community College's Automotive program offers a comprehensive learning experience, balancing lecture and hands-on technical lab instruction. Classes are held during the day and evening to accommodate a wide range of interested students. Lab classes are held at the McGuire Technical Center in Newton.

## Updates

The Automotive shop has undergone an ongoing series of upgrades and new equipment. The workshop hosts six service bays, 2 with lifts. The facility is outfitted with Snap-On tools and equipment (HVAC machines, tire and wheel machines, miscellaneous other shop-related equipment). The entire facility recently had a major lighting upgrade to all new LED lights.

### SUMMER SESSION 2<sup>nd</sup> YEAR

### TOTAL PROGRAM 60

**Humanities or Social Science General Education courses**  
Choose from the list of approved Humanities or Social Science courses listed in the College catalog.

**Program Electives (Recommended)**  
Recommended courses listed below but student can also choose from any course with an AOTE, BUSA, COMS or DESL designation.

DESL102	Diesel Engines	3	<input type="checkbox"/>
---------	----------------	---	--------------------------

Students may need to first take some developmental courses that are designed to prepare students for the college-level coursework in their academic plan. This may add to the students' completion time. The number of credits students take each semester will determine when the student will complete his/her program of study.

## Certificate Automotive Technology

### FALL SEMESTER 1<sup>st</sup> YEAR

		Credit Hours	<input checked="" type="checkbox"/>
ENGL101	English Composition I	3	<input type="checkbox"/>
AOTE101	Automotive Fundamentals	3	<input type="checkbox"/>
AOTE110	Automotive Electrical Systems	3	<input type="checkbox"/>

AOTE206	Automatic Transmissions & Transaxles	3	<input type="checkbox"/>
<b>TOTAL SPRING SEMESTER</b>		<b>15</b>	

### TOTAL PROGRAM 30

Students may need to first take some developmental courses that are designed to prepare students for the college-level coursework in their academic plan. This may add to the students' completion time. The number of credits students take each semester will determine when the student will complete his/her program of study.

## Program Offerings:

### Automotive Technology Certificate\*

**It's the most popular option.** One year, two-semester option for students to fast-track into the industry. Financial aid eligible.

### AAS Automotive Technology

Two-year, four-semester option. Same cores courses as the Automotive Certificate, plus an additional 17-21 credits of electives and General Education courses. Requires an internship.

\*\*both options offer ASE testing and certification in basic A series subjects

\*\*Snap On 596 multimeter certification, Jump Start and Charge Certifications

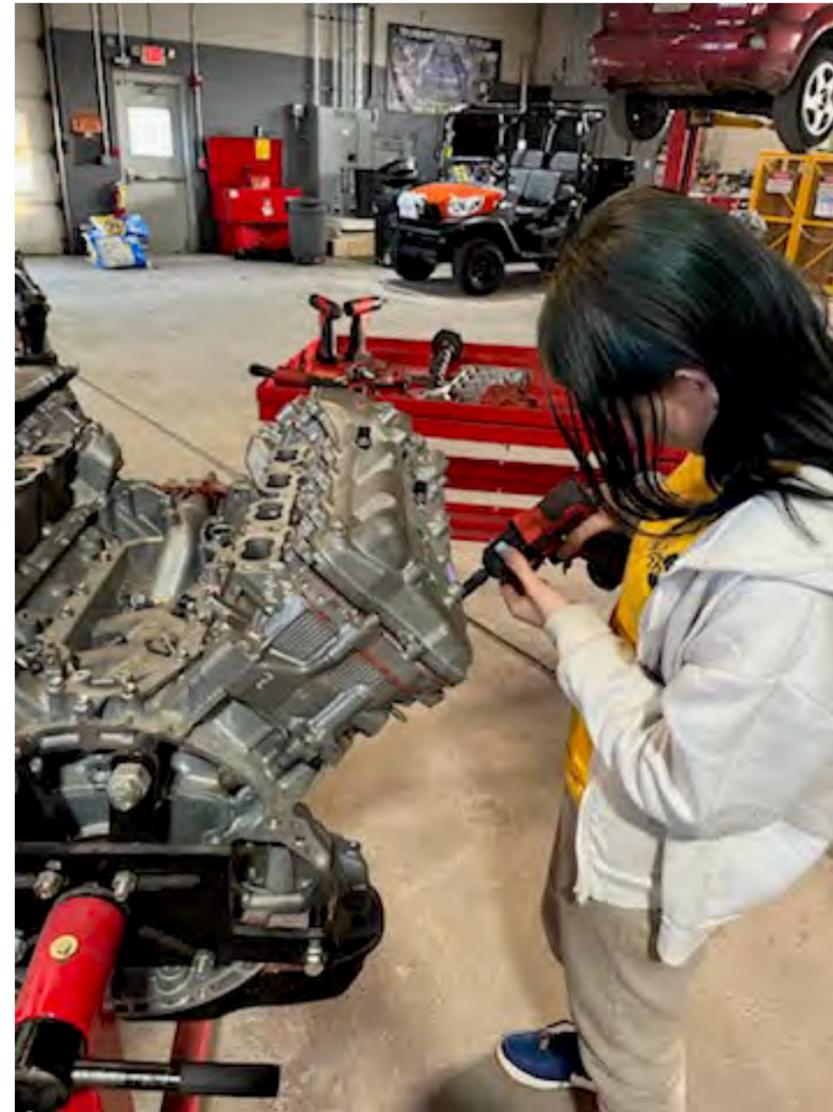

# Hybrid and EV Safety and Awareness

# Project Self Sufficiency

(roughly 75 students a year)

## Future of Goals:

- Continue to develop industry partnerships
- Increase program internship offerings
- Further explore PLA/CPL opportunities for current workers
- Expand dual-enrollment opportunities
  - March 2025, SCCC and Sussex Tech signed an articulation agreement to fast-track students towards an AAS
- Increase Job placement
- Explore course design for EV and Hybrid (focused on safety and awareness)
- Continue to grown dual enrollment (Jumpstart) cohorts with local HS
  - Spring 25 our first Jump Start cohort will graduate SCCC with their degree/certificate in Automotive
  - Student earn 12 college credits in Automotive at the same time they complete their Senior year of highschool (\$1600)

## ABOUT SCCC Welding

### Facility

Sussex County Community College's welding program offers training in a variety of welding processes (Stick, Mig, Tig, Pipe) and options. We offer a smaller more one-on-one learning environment for students. In addition, classes are held day and evening to accommodate a wide range of interested students.

### Updates

The welding shop has undergone an ongoing series of upgrades and new equipment. It currently hosts 10 welding booths and multiple workstations for fabrication, layout, and instruction. Recently, the facility received an entire lighting upgrade to meet upcoming training compliance.

Students with additional Technical Studies Core courses must meet with the Program Supervisor to discuss changes with elective courses.

**Technology General Education courses (Recommended)**  
Recommended courses listed below but student can also choose from the list of approved General Education courses in the College catalog.

COMS110	Computer Concepts & Applications	3	<input type="checkbox"/>
---------	----------------------------------	---	--------------------------

Students may need to first take some developmental courses that are designed to prepare students for the college-level coursework in their academic plan. This may add to the students' completion time. The number of credits students take each semester will determine when the student will complete his/her program of study.

## Offerings:

### Welding Technology Certificate\*

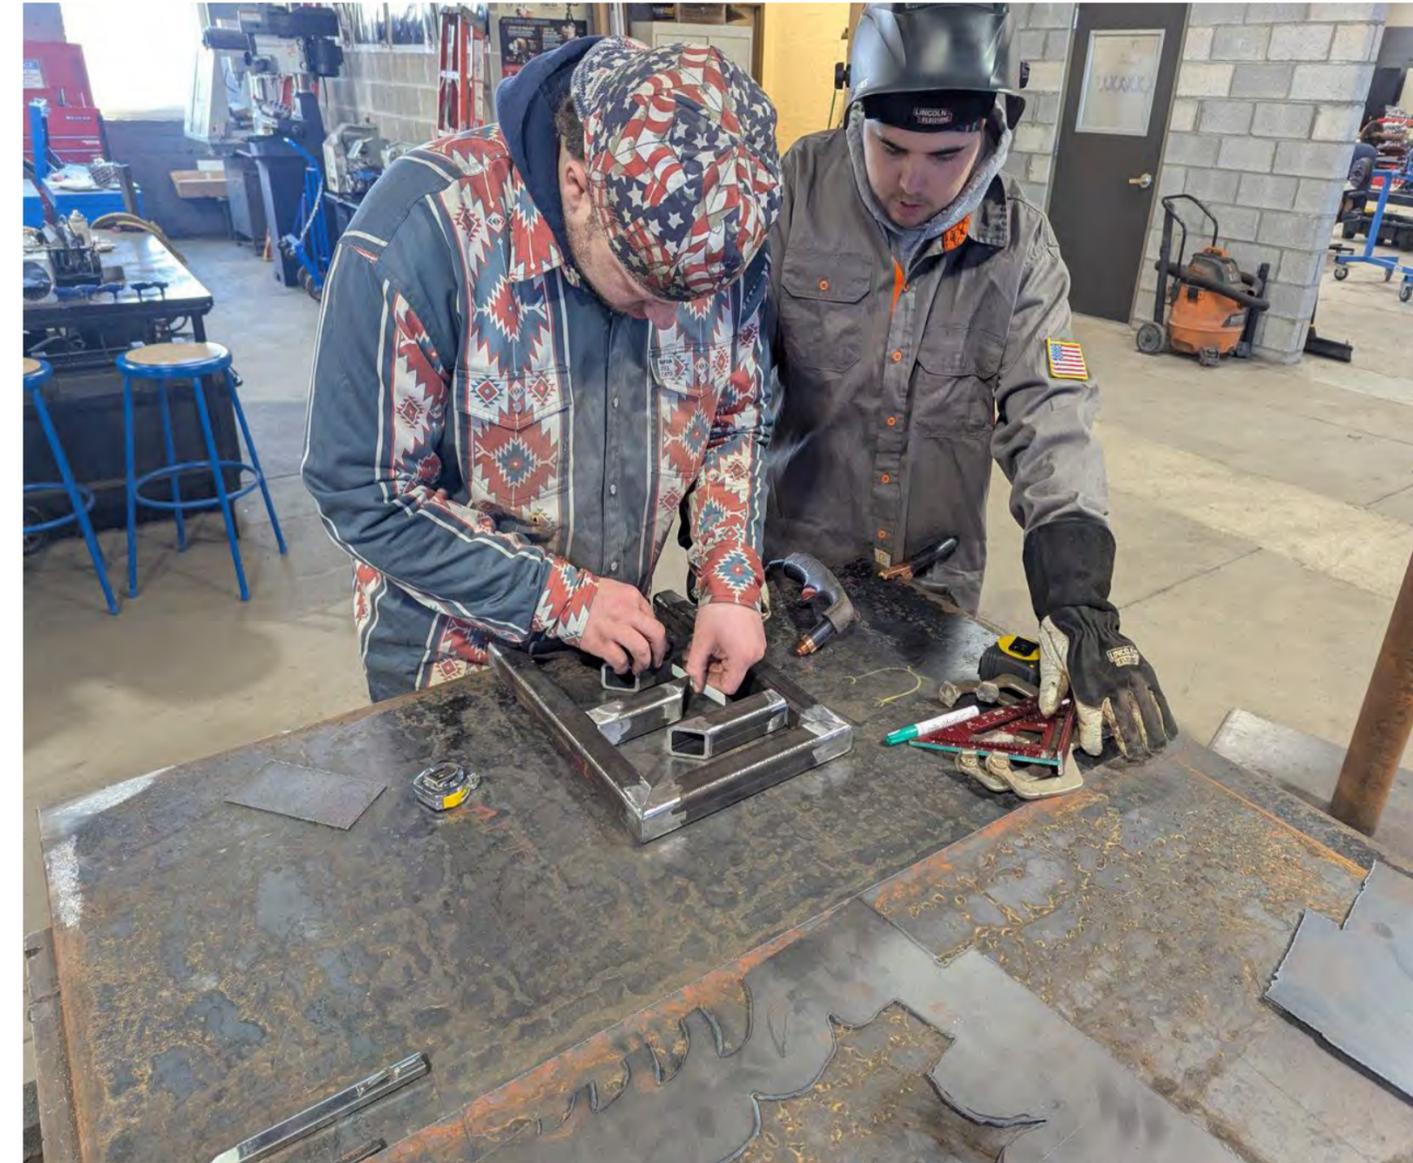

It's the most popular option. One year, two-semester option for students to fast-track into the industry. Financial aid eligible.

### Welding Technology COA

Two semester option for students looking to enter the workforce quickly. Certificates of Achievement are not financial aid eligible.

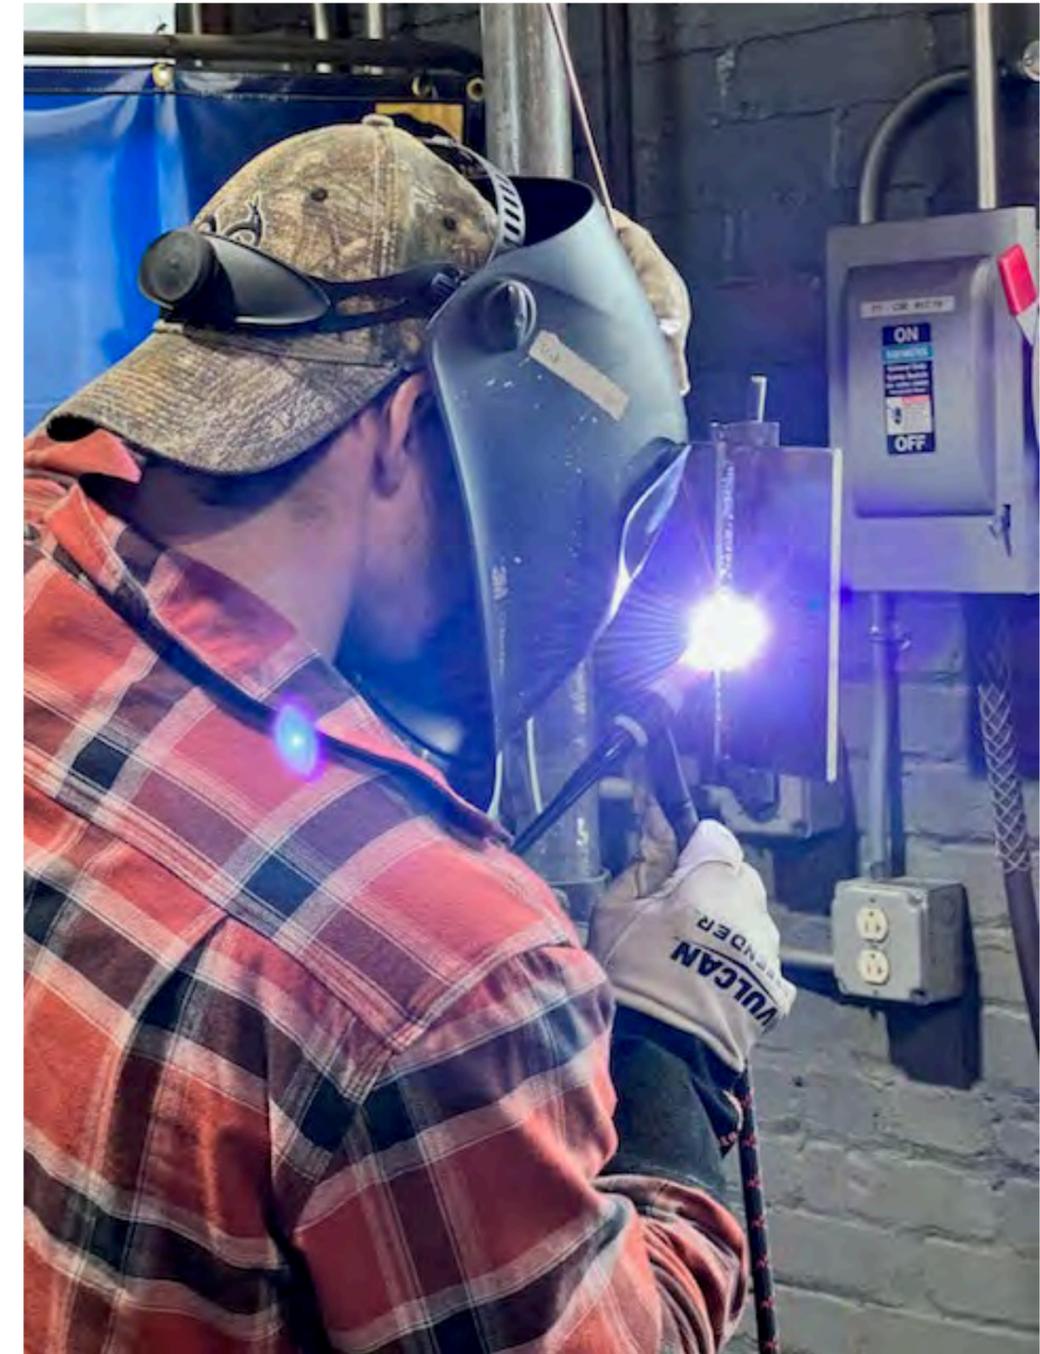

### AAS Welding Technology

Two-year, four semester option. Same courses classes as the Welding Certificate, plus an additional 17-21 credits of General Education courses.

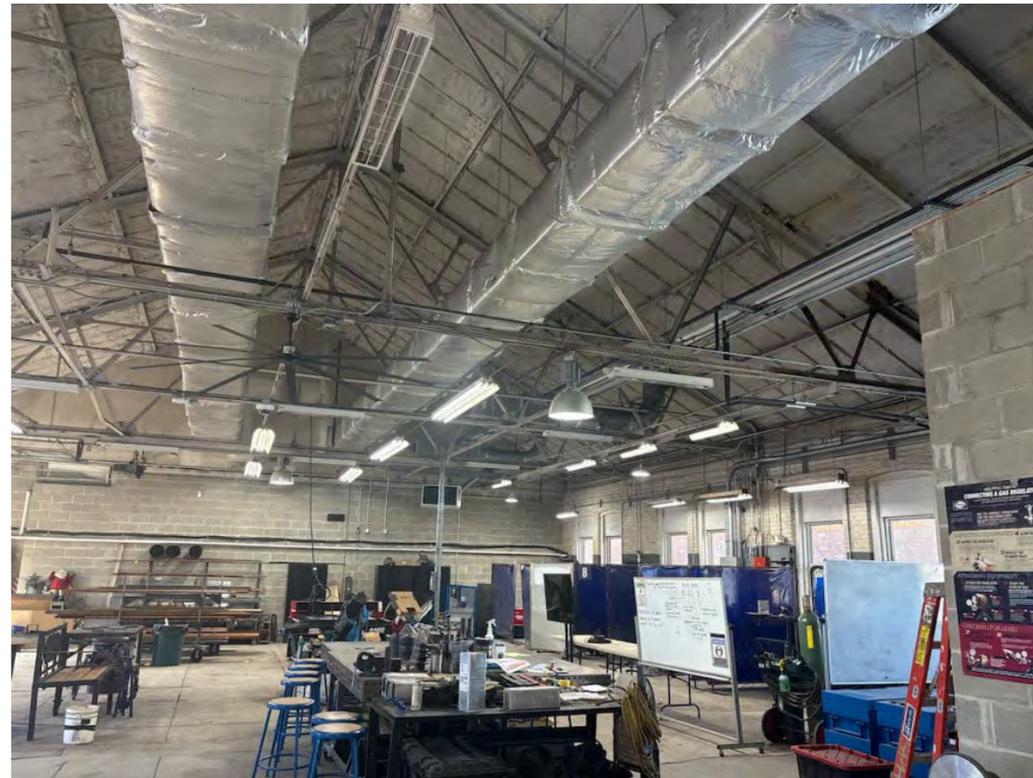

# Welding Certification Testing

\*AWS offerings in Stick, Tig, Mig, Pipe. OSHA 30 Certification

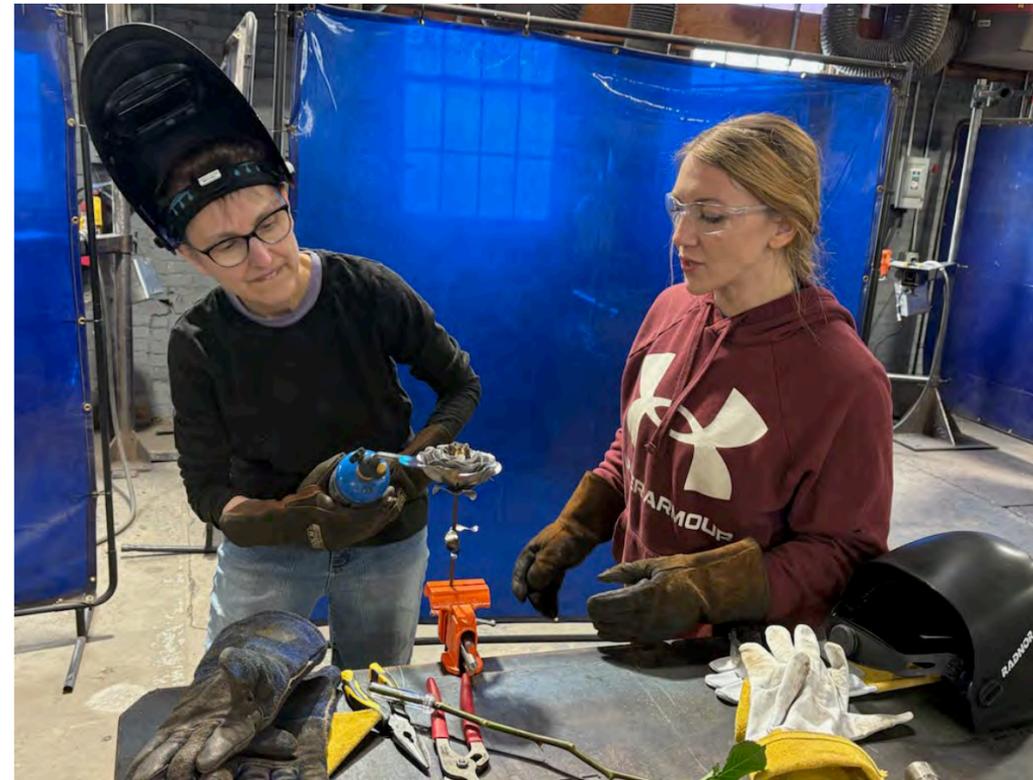

# Recent updates: LED lighting and CNC Plasma

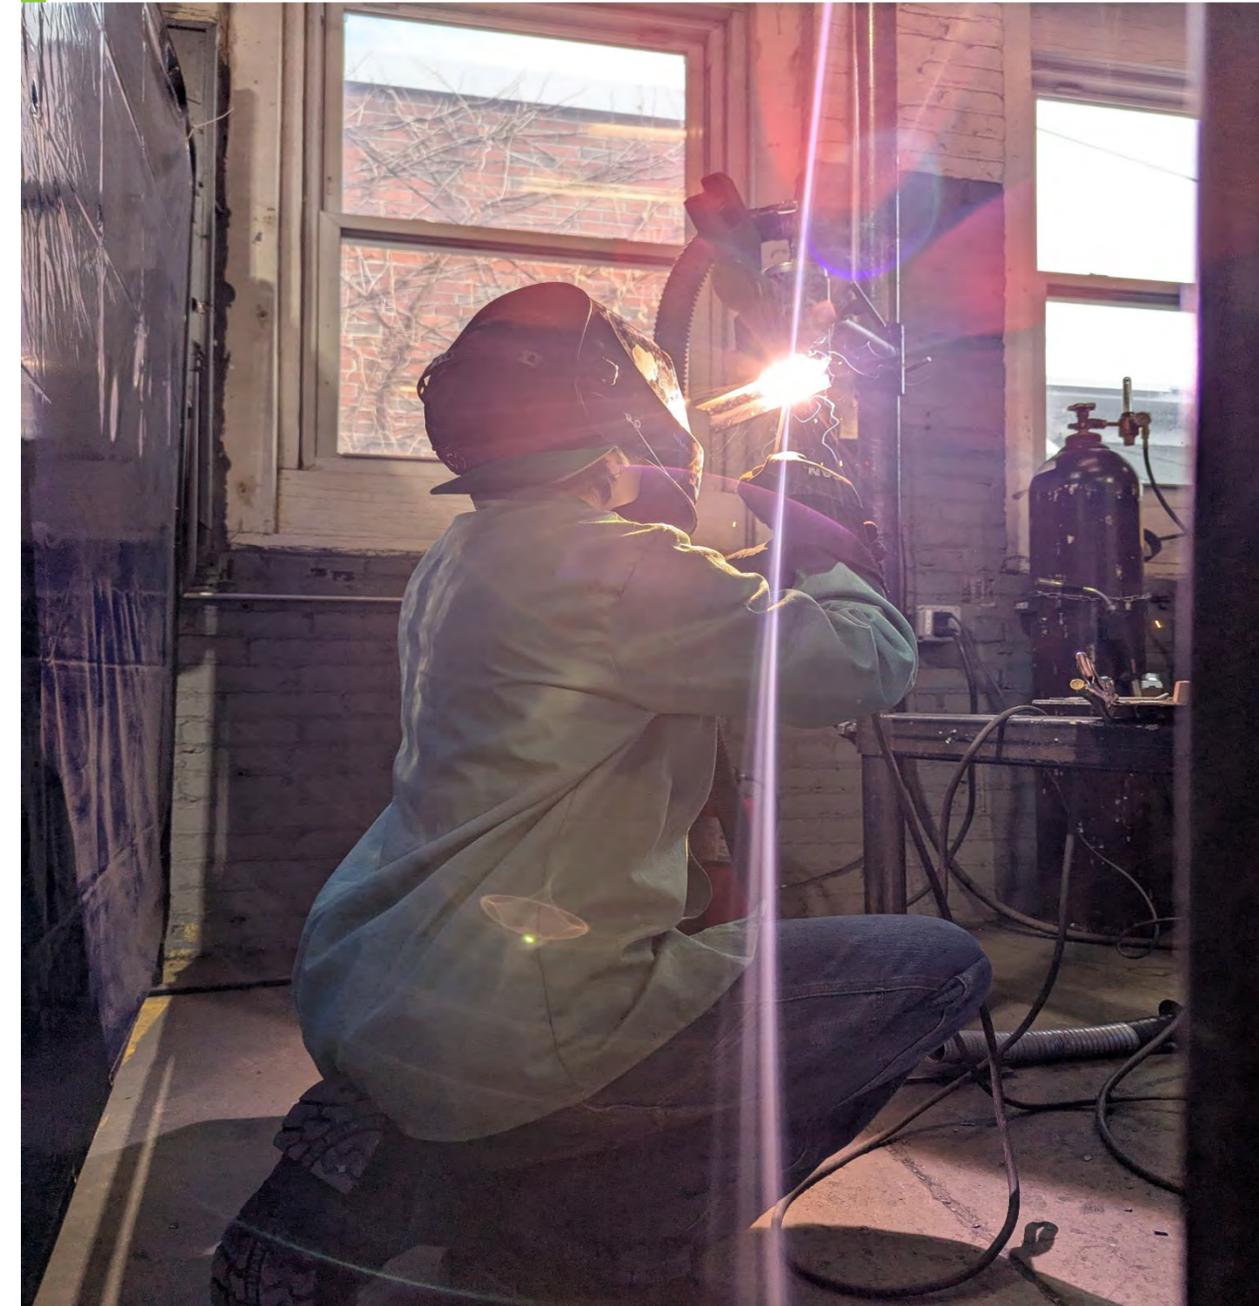

# Community Engagement

Spring 25, Welding Program Supervisor Brianna Miller ran a pilot welding workshop themed in flower making

## Future of Goals:

- Continue to develop industry partnerships
  - Last advisory board held April '25
- Over FY 25/26 explore options in CNC
- Increase program internship/apprenticeship offerings
- Further explore PLA/CPL opportunities for current workers
- Expand dual-enrollment opportunities with local HSs
  - March 2025, SCCC and Sussex Tech signed an articulation agreement to fast-track students towards an AAS

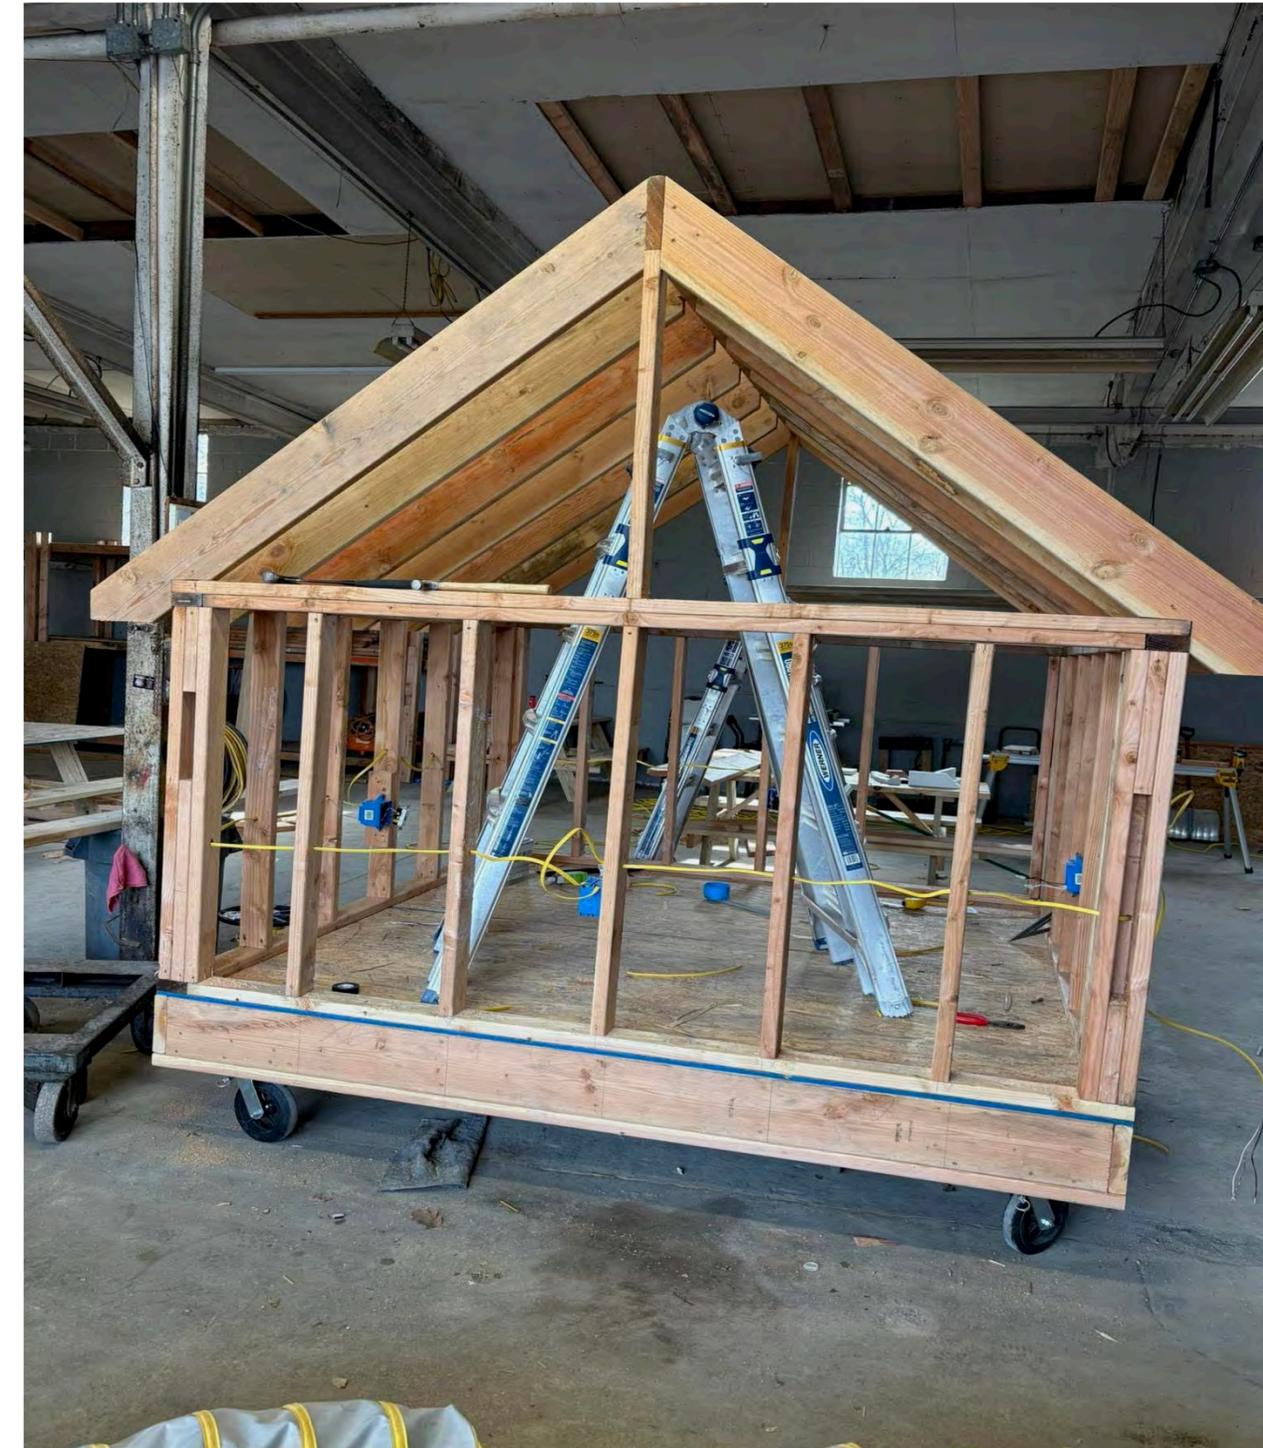

# Building Construction Trades

## Facility

Sussex County Community College's Building Construction Trades program offers a comprehensive learning experience, balancing lecture and hands-on technical lab instruction. Classes are held during the evening to accommodate a wide range of interested students. Lab classes are held at the McGuire Technical Center in Newton.

## Updates

The Building Technology Program will undergo a renovation of the existing McGuire B building. This project will offer an additional 3000 sq. ft of lab and instruction space.

# AAS Building Construction Trades

## Summer 2025:

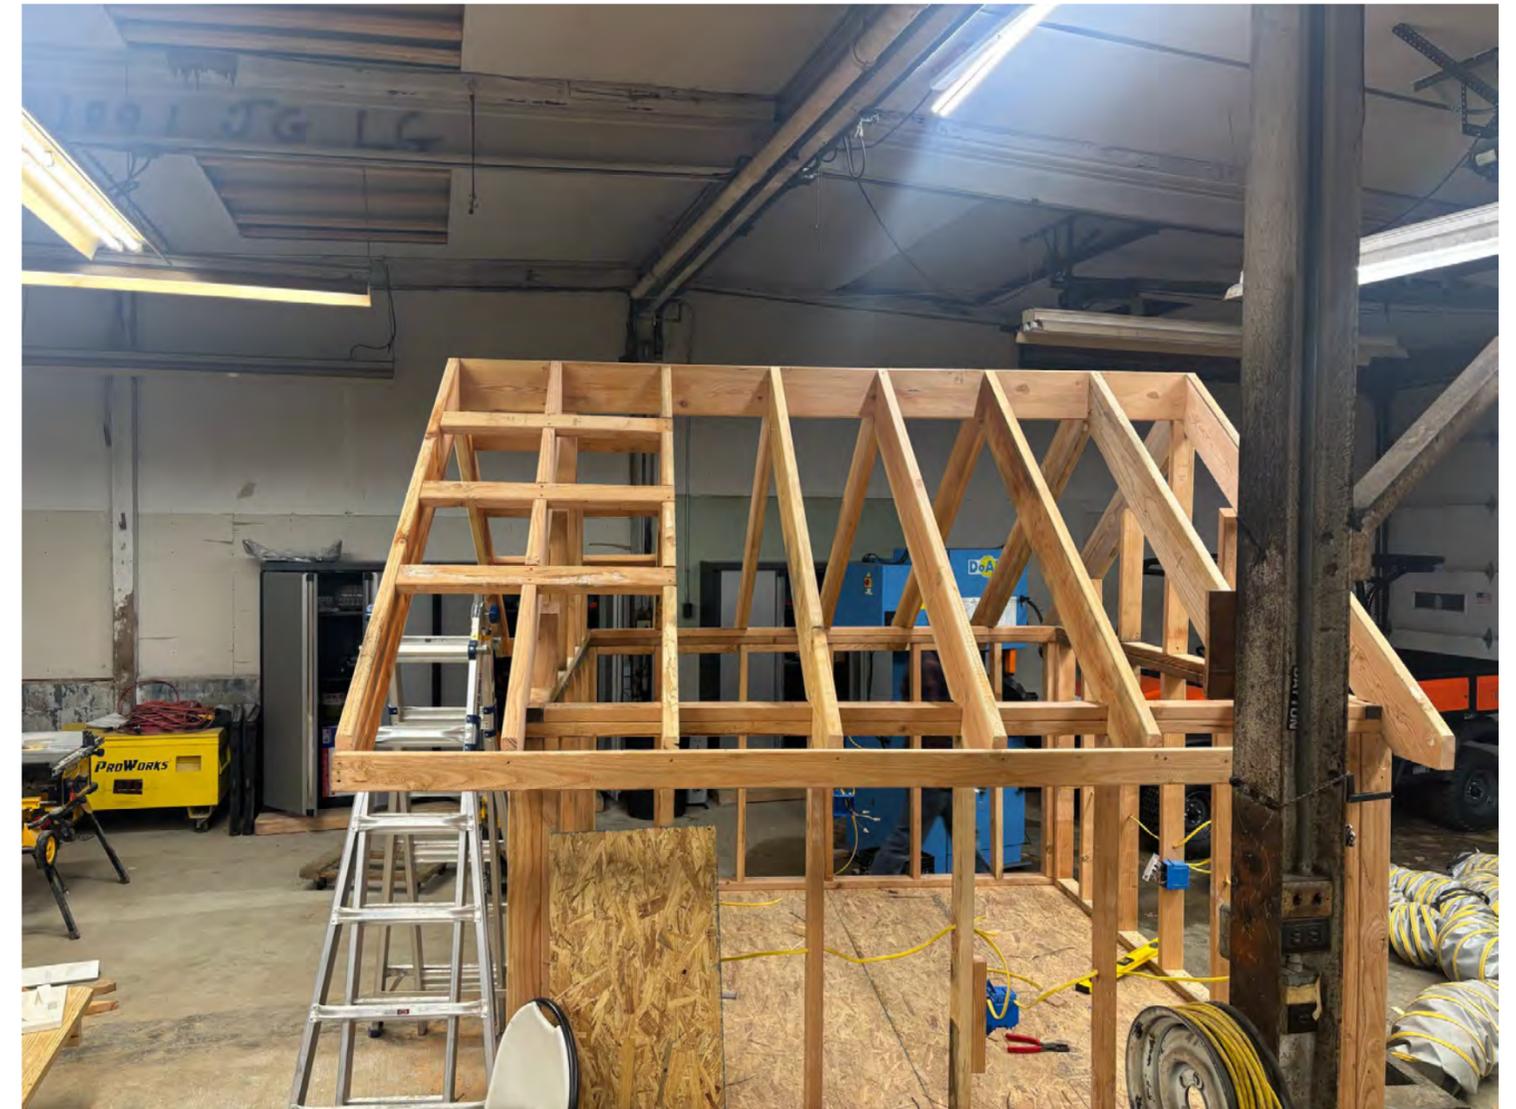

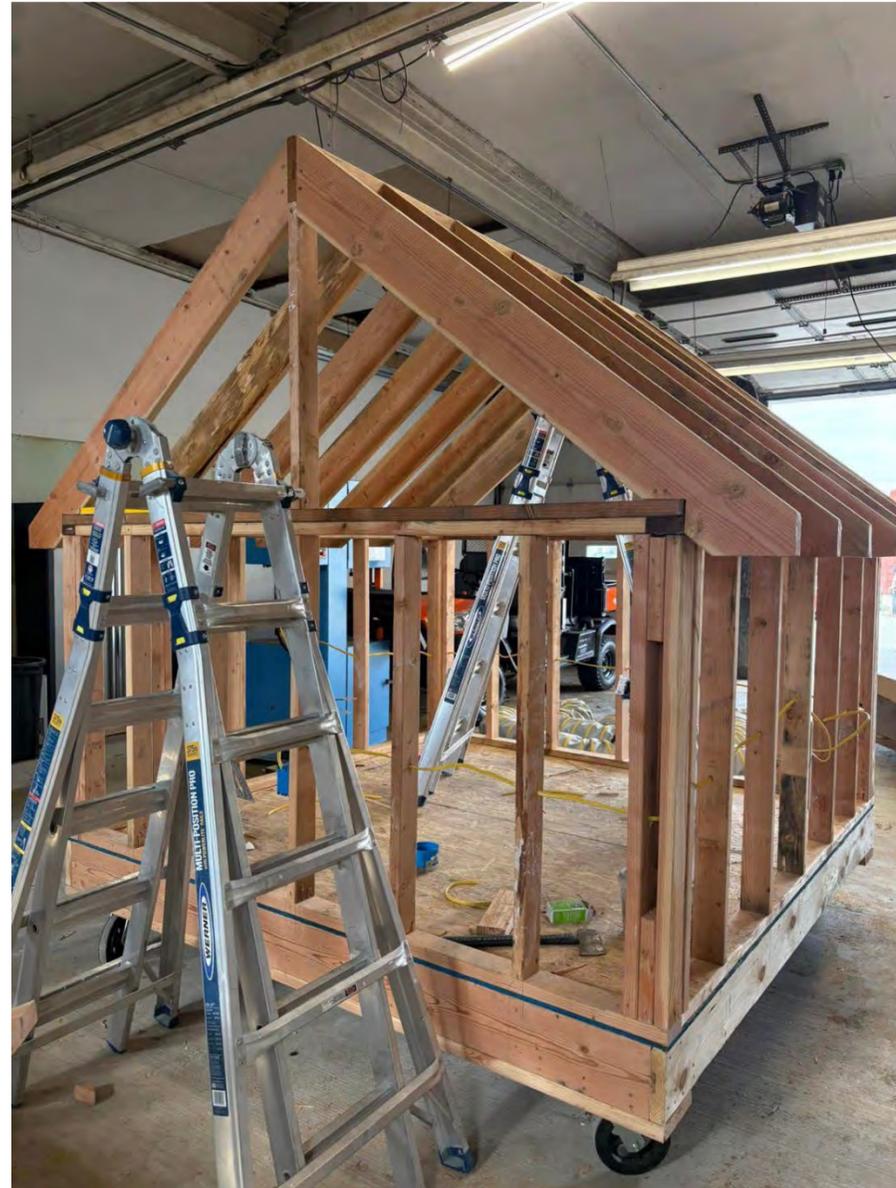

- **Current program curriculum will be revised to develop a more balanced approach to training**
  - Individual courses focused deeper into HVAC, Electrical, and Plumbing
  - TRANE Residential certification

- **A 30 credit Academic Certificate will also be developed**

# Electrical Lineworker at SCCC

## Facility

The facility located at Walkkill Valley Regional High School is equipped with over 20 poles and a mobile teaching classroom (shed). The poles are equipped with training electrical lines, transformers, and other equipment that students would experience in the field.

Through Perkins funding, the program has expanded its training offerings to include exterior pole fields to simulate real-world electrical line draws and pulls, along with multiple workstations for transformer wiring, installation, and removal.

# Electrical Lineworker

The Electrical Lineworker certificate program offers the students the opportunity to gain hands on skills and theoretical knowledge to be successful in the electrical utility industry.

## Certifications:

- BLS and first Aid
- Flagging Certification
- OSHA 30
- CDL ( in partnership with 160 Driving Academy)

Students may need to first take some developmental courses that are designed to prepare students for the college-level coursework in their academic plan. This may add to the students' completion time. The number of credits students take each semester will determine when the student will complete his/her program of study.

## In 2022 SCCC Launched the Electrical Lineworker Program

**The program started on a minimally built up pole field, supported by industry volunteers from Sussex Rural Electric.**

**Today, 2025, the Electrical Lineworker program hosts:**

- **25 pole climbing school**
- **12 pole lab/skills training field**
- **1 digger truck**
- **1 bucket truck**
- **Fully heated field house**

# SCCC Lineworker Climbing School

Spring 2025 Lineman Expo. Spring 25, over 40+ attendees

# Simulated "hot work"

# Pole yard expansion

# Current Partners

**Sussex Rural Electric**

**PSE&G\***

**JCPL\***

**Orange and Rockland Utility\***

**Planet Networks\*\***

**Verizon – Fiber**

# Advanced Manufacturing

## Facility

The Advanced Manufacturing Program at SCCC is housed primarily at Thor Labs in Andover. This mutual partnership has allowed for a seamless transition to support current Thor Labs employees looking to further their education in advanced manufacturing. This unique relationship also allows non-Thor Labs employees to see firsthand the fast-paced industry of Advanced Manufacturing.

## Updates

Over the last three years, the Advanced Manufacturing Program at SCCC has received nearly \$30,000 in scholarship money from the Gene Hass Foundation.

# Advanced Manufacturing

## 1 Year Certificate in Advanced Manufacturing

- Students gain experience in manual machining and metrology
- SolidWorks
- Basic CNC operation
- Fall 2024, concurrent enrollment course offerings were developed with High Point HS.

Students may need to first take some developmental courses that are designed to prepare students for the college-level coursework in their academic plan. This may add to the students' completion time. The number of credits students take each semester will determine when the student will complete his/her program of study.

# Optics Technology at SCCC

## Facility

### R Building Expansion

- Construction of expanded optics manufacturing facilities underway offering two dedicated classrooms, optics lab, and manufacturing space.
- Anticipated completion in December 2025.

## Updates

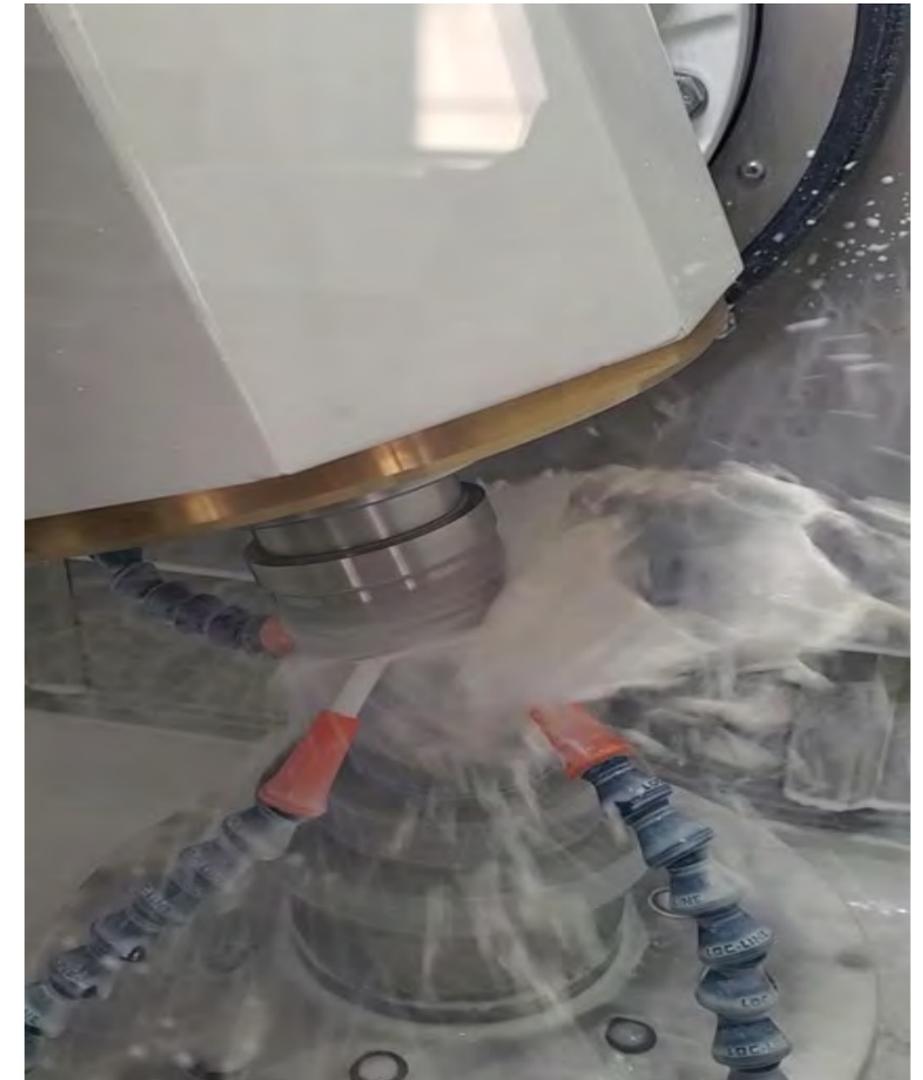

**STEM Day** – Hosted 100 regional high school students for hands-on optics demonstrations.

### Optics Trainings

*Optical Coating Machine Training* (December) with industry experts from *Satisloh* and *Thorlabs*.

*Laser Alignment Training* (March) with experts from *Optical Alignment Tech* and *Special Optics*.

- Program info sessions at *Thorlabs* and *Esco Optics* (May).
- *Summer Optics Workshop* – Two-day training for high school educators on optics industry careers and teaching strategies.

## Program Offerings

The Optics Technology program provides students with hands-on training and practical knowledge in advanced manufacturing techniques used in the optics industry. Developed with input from regional industry partners, we offer:

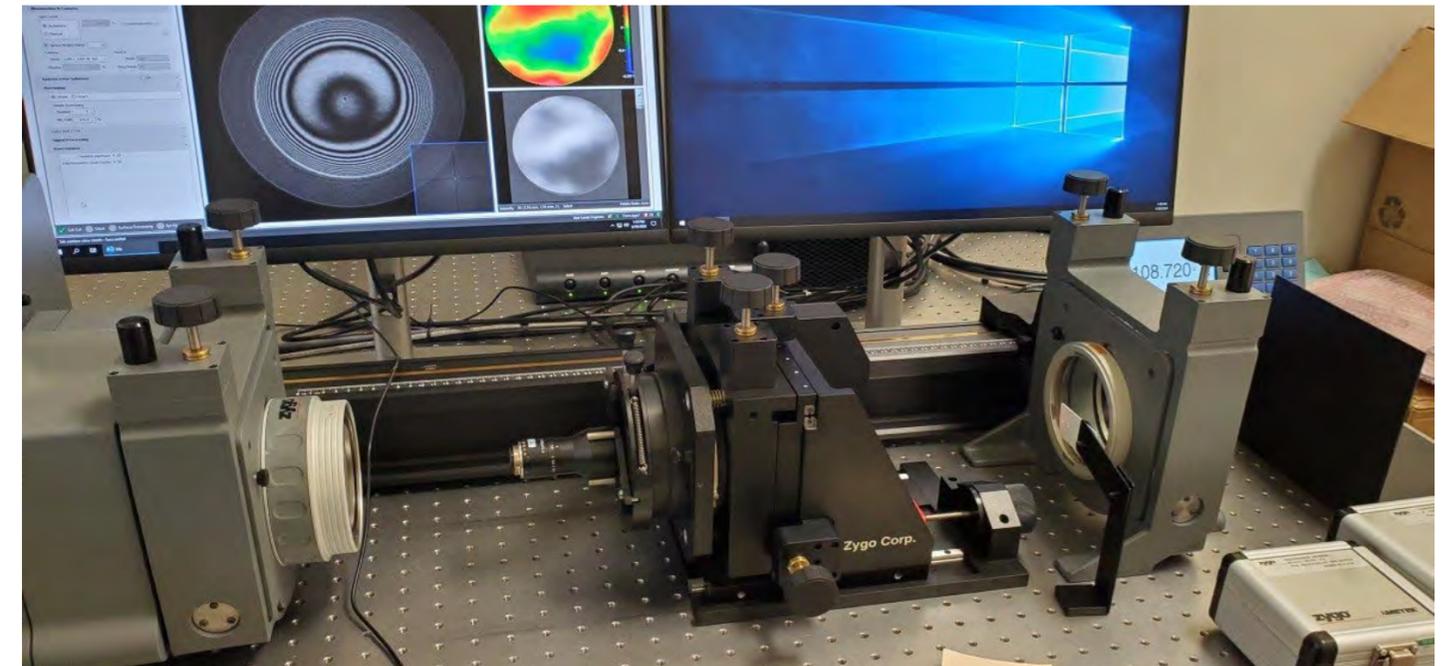

### **A.A.S. in Optics Technology**

A comprehensive program covering optics manufacturing technologies, providing both technical and general education.

### **Certificate Programs**

Accelerated, focused training in:  
CNC Optical Manufacturing  
Conventional Optics Manufacturing  
Optical Metrology

\*SCTS offers Optics 101 concurrently in the Spring, enrollment average 18-25.

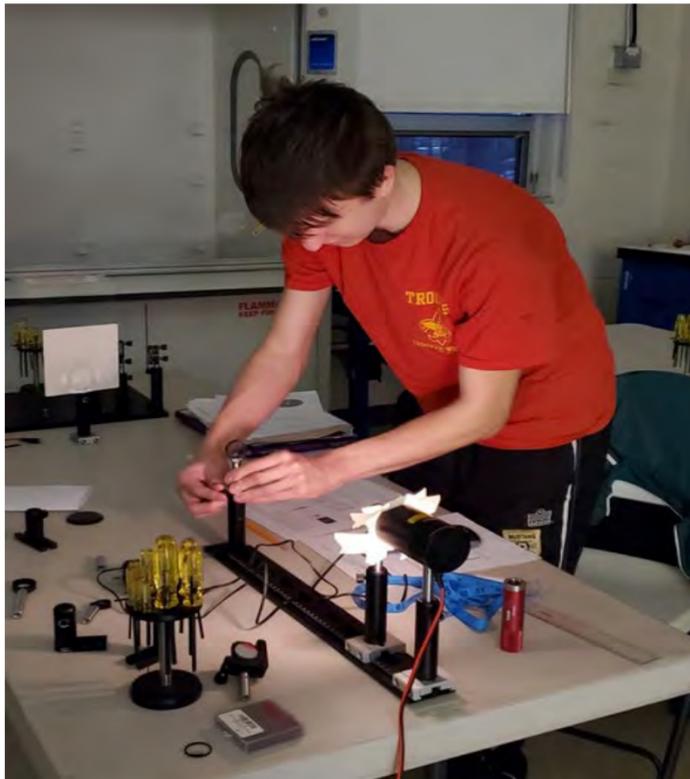

# Student Success Stories

Mateo Pascale – First-year student with no prior optics experience, hired by industry partner Esco Optics.

Will Kane – Completing the one-year certificate in Optical Metrology, hired by Thorlabs.

Timothy Zayac – Recipient of the Student Excellence in Optics Award, graduating with an A.A.S. degree; continuing studies in Mechanical Engineering at Arizona State University.

# Project Self Sufficiency

Fundamentals of Optics is offered to Project Self-Sufficiency students, introducing them to optical science concepts and careers in the industry. (estimated 30-45 students this year)

# Medical Assistant

## Facility

The Medical Assistant program is located on the first floor of the Performing Arts building. Through grant funded initiatives, the College has been able to maintain high-quality and industry-specific equipment in the lab spaces.

## Updates

The conversion of a computer lab was approved in the Spring 2025 Semester to expand the Medical Assisting lab and to make room for the new Patient Care Technology program. There will be a new nursing simulation lab being constructed in the summer of 2025 that will be used by all Allied Health programs.

<b>TOTAL SUMMER SEMESTER</b>			<b>9</b>	
<b>TOTAL PROGRAM</b>			<b>36</b>	

The number of credits students take each semester will determine when the student will complete his/her program of study.

# Exercise Science

## Facility

Human Performance Lab moved from E-building to Makerspace in Spring 2024. The increased space has allowed for greater participation and engagement in lab experiments. Additionally, it has allowed us to purchase specialized equipment, such as the Wingate Cycle, to conduct exercise tests that would otherwise not be possible to conduct due to the lack of space in the previous lab.

## Updates

- Finalizing the Early College Advancement Programming between SCCC & SCTS.
- Conversation started with Hopatcong HS and Kittatinny Regional HS regarding concurrent coursework and Early College Advancement Programs.
- Articulations with Centenary, WPU, and East Stroudsburg U. will be renewed/updated summer 2025 to reflect curriculum changes.
- Additional articulations will be explored.

# Certifications

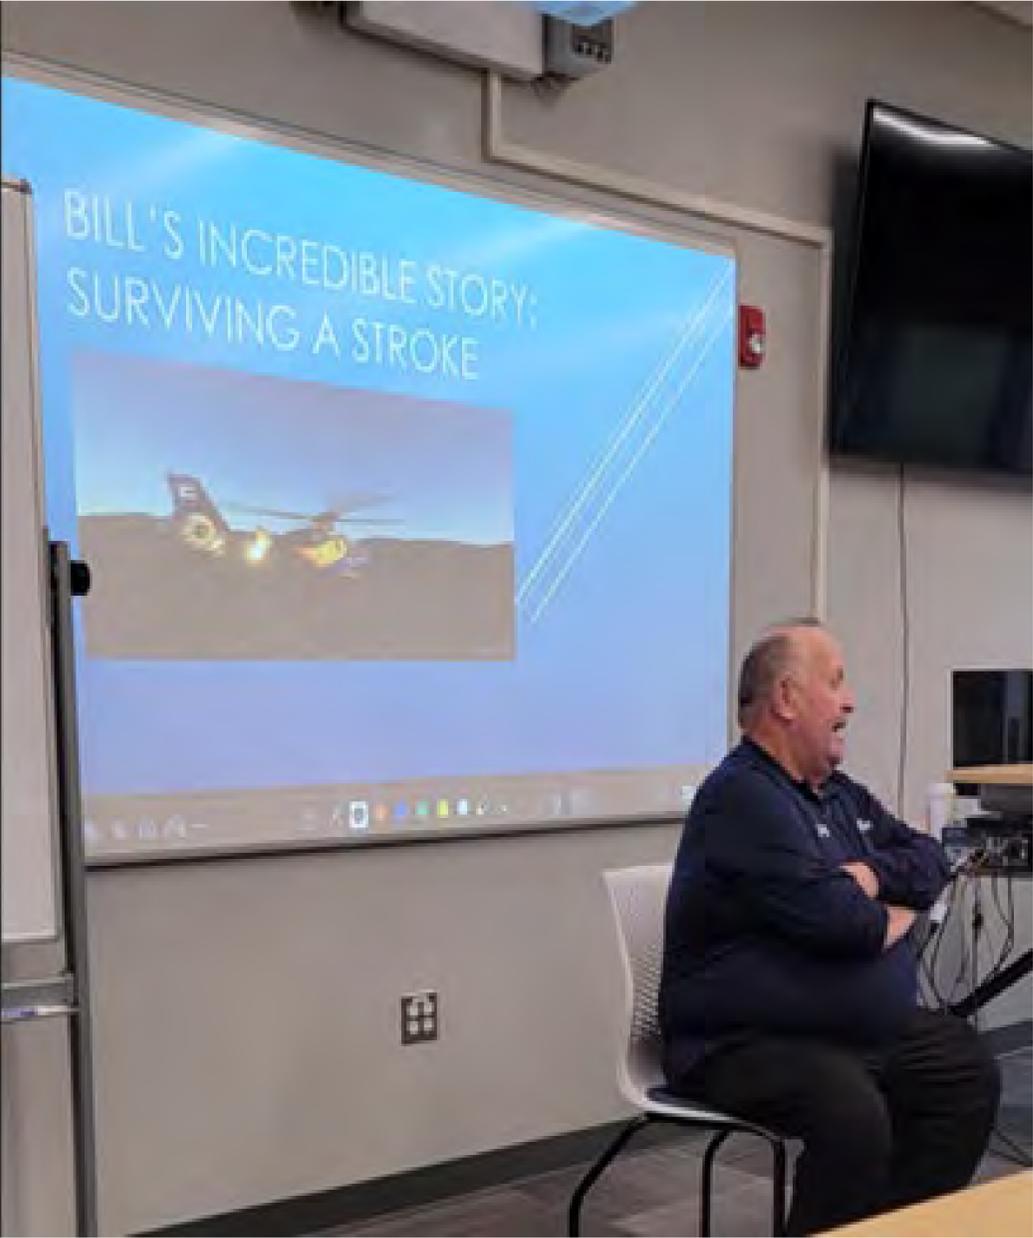

CPR& AED and First Aid

Certified Personal Trainer

# Recent events

# Culinary Arts

## Program Offerings

- Culinary Arts Certificate
- Culinary Arts A.A.S
- Baking & Pastry Arts Certificate
- Baking & Pastry Arts A.A.S
- Hotel & Restaurant Management A.A.S

## Updates

- Freshman Culinary students performed their Food Principles cooking practical at Bristol Glen with live action cooking stations for the residents.
- Freshman Culinary students prepared 2k thanksgiving meals for community members in need.
- Baking & Pastry students baked and donated 2k cookies for Project Self Sufficiency's Holiday Toy Drive.
- Culinary Jumpstart student Donovan Herrera completed his certificate last year as a senior at Newton H.S and is completing his A.A.S this semester.
- SP25 we hosted 3 dozen Sussex H.S Guidance Counselors at Arbor for our Lunch & Learn Sessions.
- SCCC Culinary has participated in 7 community/charity events.

# Culinary Institute

## Arbor Restaurant

**This year.....**

**Arbor Restaurant is on pace to serve 2,700 guests this year.**

**Arbor Bakeshop is on pace to serve another 1,200 guests this year.**

**SCCC Culinary will have done 56 community workshops welcoming 672 guests.**

**Catering for 30 different college & community events**

# Agriculture & Horticulture

## Facility

The Horticulture Science and Agriculture Business programs at SCCC have several skills labs. SCCC The main campus houses the existing SCCC Greenhouse. At the student farm, off Route 206 in Andover, students get to learn in a real-world setting. The SCCC Farm is a three-acre soil science lab and market garden. These unique opportunities not only provide vital learning for our students but also serve the campus community.

## Updates

Currently, SCCC has created concurrent course offerings with Newton High School. These courses include topics such as Ecological Landscape Management, Introduction to Soil Science, Introduction to Agricultural Science, and Plant Propagation.

## Eco-Friendly Gardening for Home Grounds Conference

March 29 | 9:00 AM to 12:30 PM | Performing Arts Center

9:00-9:15 AM | Introduction and Opening Remarks

9:15-10:00 AM | First Session | PAC Atrium

Amy Rowe, RU - Stormwater Management in the Home Landscape

10:00-10:15 AM | Break

10:15-11:00 AM | Second Session | PAC Atrium

Tim Waller, RU - Managing Common Landscape Pests  
& Diseases through Cultural and Preventative Maintenance Practices

10:15-11:00 AM | Second Session | Lecture Hall, Room A232

Megan Myers - Chicken 101

11:00-11:15 AM | Break

11:15 AM- 12:00 PM | Third Session | Lecture Hall, Room A232

Zach Holmes, SCCC - Turf Grass & Turf Grass Mgmt.

11:15 AM- 12:00 PM | Third Session | PAC Atrium

Jean Epiphan, RU - Conserving & Restoring Local  
Ecological Communities in Your Home Garden

12:00-12:30 PM | Closing Remarks

## Spring 2025

- In a joint partnership with Rutgers University, SCCC hosted the first annual Eco-Friendly Conference.
- Presenters from Rutgers and SCCC covered various topics geared towards the "home-friendly" and DIY community.
- The goal of this conference was also to create awareness of all the programs offered locally, not only at SCCC but also at local high schools and four-year colleges.

## Future Initiatives

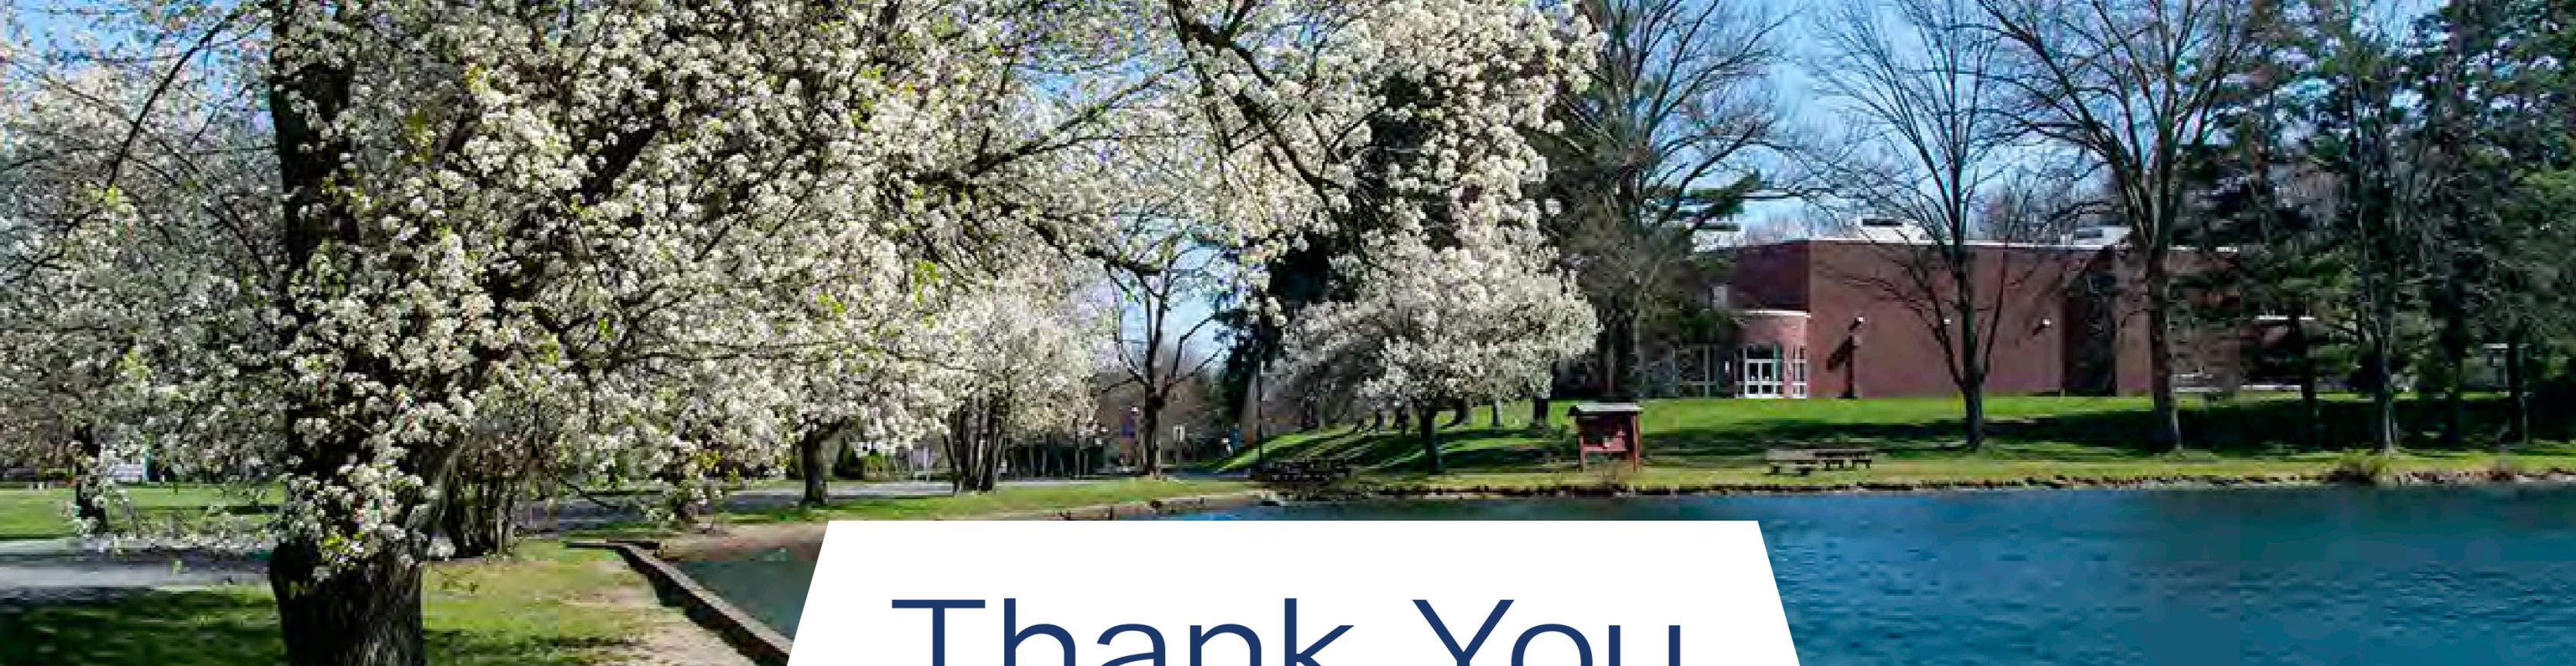

- **Review and revise program curriculum**
  - Update articulation with SUNY Cobleskill
- **Expand current partnership with Hudson Farms, and explore similar framework with other local farms**
- **Continue to work with SCTS on articulation agreement(s)**
- **Spring and Summer 2025 will see the creation of new shared garden spaces on SCCC campus, as well as a community garden at the SCCC Student Farm**

## New Programs and Initiatives:

- The Kubota Training Program (Fall 25)
- Heating and Air Conditioning (Trane Residential, FY 25/26)
- Hybrid and EV Technology
- Increased support to Technical Theater and the Arts
- Further collaborations with other academic areas
- Robotics
- Engineering
- Expanded Concurrent offerings
- Forklift Certification
- NJCCC – CDL and GIS
- Massage Therapy
